

RSV for 4E0X1

Minimum currency levels have been set for many skills. These "proficiency standards" imply a level of activity sufficient to maintain skills, but do not necessarily denote competency.

Skills Specific to AFSC

Skill Set:	Knowledge/ Performance	Currency	Training Sources	Trainer/Verifier Initials	Verify Date	Member's Initials
------------	---------------------------	----------	------------------	------------------------------	----------------	----------------------

1. FORCE HEALTH MANAGEMENT

- | | | |
|---|------|---|
| a. PROVIDES MEDICAL INTELLIGENCE INFORMATION: 1. Collects information and determines risk to human health on endemic diseases and illnesses, hazardous plants and animals, nuisance pests, injuries, occupational and environmental hazards, climatic extremes, topography of the area, local medical capabilities and other factors which could degrade human performance. 2. Provides input on determining proposed deployment sites (includes evaluation of environmental conditions, size and mission of base personnel and capability of medical unit). 3. Briefs commanders and personnel on general medical intelligence considerations and countermeasures that could affect the operation (diseases, climate, and topography of the area and NBC threat, to include toxic industrial materials). | Q20M | http://wwwsam.brooks.af.mil/web/eh/index.html |
| b. PROVIDES HEARING CONSERVATION: 1. Selects, fits, and issues hearing protection devices to installation personnel. 2. Establishes adequate stock levels for hearing protection devices with medical supply | Q20M | http://wwwsam.brooks.af.mil/web/eh/index.html |

2. COMMUNITY HEALTH MANAGEMENT

- | | | | | | | |
|----|---|------|---|--|--|--|
| a. | ENSURES FOOD AND WATER SAFETY AND SECURITY: Prevents food borne illness. 1. Ensures food safety upon receipt for wholesomeness and coordinates inspection activity with appropriate contracting and receiving personnel as necessary. 2. Ensures foods are evaluated periodically in storage to keep them wholesome and usable. 3. Medically evaluates both on-base food facilities and off-base potential local supplies of food for food preparation practices, personnel hygiene, facility and vehicle sanitation, and to ensure foods are protected from damage, contamination and infestation. 4. Collects and submits samples to appropriate laboratory of any stored product pests identified during evaluations. 5. Evaluates aircraft food operations to ensure proper food safety techniques are followed. 6. Advises leadership on recommendations for food safety and security measures. 7. In the absence of Bioenvironmental Engineering Personnel...Assess field water supplies. Performs biological contamination test and pH test as appropriate. 8. Determines the need for additional support. | Q20M | http://wwwsam.brooks.af.mil/web/eh/index.html | | | |
| b. | CONDUCTS FOOD VULNERABILITY ASSESSMENT: Conducts food vulnerability studies and recommends control measures (works with food activities, contracting, force protection, and OSI for deployment sites and fixed installations overseas). | Q20M | http://wwwsam.brooks.af.mil/web/eh/index.html | | | |

<p>c. EPIDEMIOLOGY AND COMMUNICABLE DISEASE CONTROL: 1. Performs surveillance (Monitors and investigates incidents of illness or injury encountered predeployment, at the site of operation, and post deployment, utilizing available disease and non-battle injury surveillance systems). 2. Performs appropriate investigations (Conducts personal interviews and performs epidemiological investigation for personnel suspected of exposure to a communicable disease). 3. Reports findings and recommends control measures (Provides written and oral briefings on patient illnesses and injury trends to commanders, health care providers, and deployed personnel). 4. Coordinates prevention activities (Coordinates with pharmacy, immunization personnel, and supply about availability of necessary preventive medication during disease outbreaks). 5. Documents and reports DNBI incidence, lessons learned, and disease and injury control actions taken.</p>	Q20M		http://wwwsam.brooks.af.mil/web/eh/index.html			
<p>d. EVALUATES FACILITIES: Observes, evaluates and makes field hygiene and sanitation recommendations in quarters, work areas, shower/latrine facilities, waste disposal, and any other locations/activities not included under food safety.</p>	Q20M		http://wwwsam.brooks.af.mil/web/eh/index.html

<p>e. CONDUCTS MEDICAL ENTOMOLOGY PROGRAM (surveillance, risk assessment and recommendations): 1. Conducts vector-borne disease surveillance (Collects surveillance information on vector populations or conducts necessary surveillance to identify vectors at deployed site). 2. Identifies vector and determines public health significance of damage or infestation. 3. Correctly packages and ships necessary samples to appropriate entomology laboratory. 4. Works closely with Base Civil Engineering (BCE) personnel and local authorities to produce an effective pest management program during deployments (Provides information on the identity, size, location and threat of the target vector and pest population). 5. Performs health risk assessments and advises commanders and support agencies on specific health effects (Assessments are based on AFPAM 90-902, Operational Risk Management Guidelines and Tools). 6. Identifies and reports need for aerial spray if surveillance shows a severe or potentially severe vector or pest problem that is not controllable by ground equipment</p>		Q20M	<p>http://wwwsam.brooks.af.mil/web/eh/index.html</p>			
3. HUMANITARIAN ASSISTANCE						
<p>a. HUMANITARIAN ORGANIZATIONS AND AGENCIES: Understands available GO, NGO, and other civil agencies and how they interact with the US Military during Humanitarian Operations.</p>		Q20M	<p>http://wwwsam.brooks.af.mil/web/eh/index.html</p>			
4. NBC/WMD						
<p>a. ADVISES ON HEALTH EFFECTS OF NBC/WMD WARFARE AGENTS: Advises medical and line commanders and personnel on health effects of NBC/WMD warfare agents.</p>		Q20M	<p>http://wwwsam.brooks.af.mil/web/eh/index.html</p>			
<p>b. PROVIDES CONSULTATION ON NBC EXPOSURE TO FOOD AND WATER: Advises medical and line commanders and personnel on health effects of NBC/WMD warfare agents and exposure to food and water supplies and advises leadership on proper decontamination procedures.</p>		Q20M	<p>http://wwwsam.brooks.af.mil/web/eh/index.html</p>
